

ILLUSTRATION, ANIMATION, AND GRAPHICS

Tietronix is recognized for its focus on reliability, on-time delivery and service. Our in-house Creative Services offers outstanding capabilities in 2D and 3D visual information creation and delivery.

Tietronix' Creative Services is committed to providing the highest quality custom illustrations and animation for a wide range of applications. We rely on more than twenty years of experience creating products for education, sales and promotion, scientific visualization, and interactive applications.

Tietronix process covers all stages of development. Beginning with concept visualization through rough sketches or storyboards, we proceed to rough composition and color tests for illustration and print, or motion tests and pre-visualization for animation. The process is completed at the final stage of production and output. At every stage of this process, client feedback helps fine tune our deliverables for the most cost effective customer satisfaction.

As part of Tietronix effort to deliver the widest range of visual products, from print, to film format and Web based animation, we use a variety of software tools - the same state of the art software used by major production companies in the motion picture, entertainment and advertising industries.

Our main tools:

- Adobe Photoshop, Illustrator, Acrobat, InDesign
- Adobe Flash, Fireworks, Dreamweaver
- Adobe Soundbooth, Premier, After Effects
- Digital Fusion
- Maya and Lightwave
- zBrush
- Rhino

Tietronix Creative Group customers include:

- NASA (PAO, SLSD, MOD)
- United Space Alliance
- University of Texas Medical Branch
- US Military Academy at West Point
